"Your Single Source for ALL Your Loading Dock Needs"

PERMA DOCK FANS - DL FAN 60" Arm Length

DL60

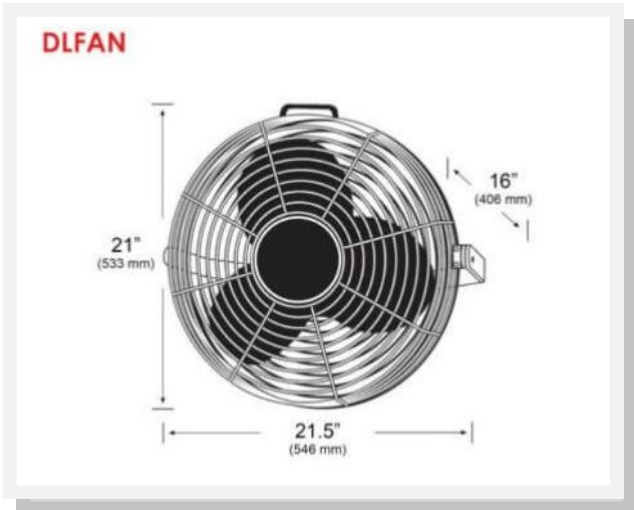

Perma Tech high capacity fan provides a powerful ventilation and cooling solution for the dock, warehouse or trailer. Each fan is supplied with a "Y" cord that enables the fan to be used separately or in conjunction with most Perma dock light heads and is available in 40" or 60" arm lengths.

This heavy duty fan can be mounted up and out of the way and still direct airflow in any desired direction. Featuring a low vibration, 18" fan, this system can move over 3,000 cubic feet of air per minute. Facilities realize increased safety and productivity by keeping employees cool on hot summer days. In the winter, it moves warm air around, keeping the warehouse more comfortable while reducing heating costs.

Consider the optional Heavy Duty Bracket for greater support on heavier lights.

KEY FEATURES

- ◆ 3-speed
- ◆ High output fan provides a safer and more comfortable environment for warehouse workers.
- ◆ Arm design allows fan to be mounted out of the way
- ◆ Provides adjustable airflow.
- ◆ Durable design and construction for reduced maintenance costs.
- ◆ Easy to install.
- ◆ UL and cUL listed.
