

# Perma Tech Inc.

*"Your Single Source for ALL Your Loading Dock Needs"*

## **PermaLOCK**

### **The Hydraulic Truck Restraint**

The PermaLOCK is a hydraulic restraint designed with an arm that renders the trailer immobile by securing itself to the truck's ICC bar. The single-button control panel, in conjunction with the exterior traffic lights, ensures proper communication between the leveler operator and the driver by indicating the status of the restraint.

#### **Key Features and Benefits:**

- Low profile, non-impact design
- 30,000 lbs. restraining strength
- Interconnects to existing loading dock
- Holds a constant pressure on ICC bar
- Interior / Exterior communication package
- Zinc plated to resist corrosion

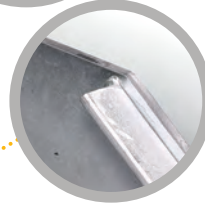

Sales & Service:

# PermaLOCK Hydraulic Truck Restraint

## STANDARD FEATURES

1. **Constant pressure Head** – the restraining arm allows truck to float but not creep away from loading dock.

2. **Low profile housing** to prevent ICC bar impact prolonging the life of the restraint.

3. Manual **release valve** - in case of power failure.

4. **Limits** to activate audible alarm should ICC bar not be detected.

5. Easy access **Maintenance cover**.

**Communication Package:** Interior/exterior red/green LED lights; Interior/exterior mirrored image warning signs; Interior control panel with red/green/amber lights.

## SPECIFICATIONS

1. 30,000 restraining force
2. Interconnected to existing Hydraulic Dock Leveler
3. Nema 12 control panel with single-button control ensures restraint is engaged prior to dock leveler begin cycle
4. Manual release valve in case of power failure
5. Zinc plated against corrosion

## OPTIONS

- Available in any Voltage
- Cantilever brackets
- Remote power packs for use with mechanical dock levelers
- Protective Guards
